

CUProdigy Cloud Managed Services

CUProdigy's Cloud Managed Services help credit unions leverage cloud technologies in order to increase security, compliance, and efficiency. Cloud solutions free up technical resources, allowing credit unions to focus on their most important task: taking care of members.

DESCRIPTION	FEE AMOUNT
IaaS Managed Infrastructure-as-a-Service (IaaS) Migration of existing physical or virtual servers into the CUProdigy-Cloud Environment with CUProdigy-Cloud providing certain support and maintenance of the VMs.	\$350 <i>per month/per virtual server</i>
IaaS-U Unmanaged Infrastructure-as-a-Service (IaaS-U) Migration of existing physical or virtual servers into the CUProdigy-Cloud Environment without CUProdigy-Cloud providing support or maintenance of the VMs.	\$300 <i>per month/per virtual server</i>
BaaS Backup-as-a-Service (BaaS) Use of CUProdigy-Cloud Environment as a backup target to restore an off-site copy into the CUProdigy-Cloud Environment.	\$125 <i>per month/per virtual server</i>
DRaaS Disaster-Recovery-as-a-Service (DRaaS) Use of CUProdigy-Cloud Environment to protect virtualized workloads by using VM replication into the CUProdigy-Cloud Environment.	\$125 <i>per month/per virtual server</i>

Here's What You Get:

- Data at Rest Encryption
- Super Fast Flash Storage Arrays
- Purpose Built for Credit Unions
- Enterprise Grade Hardware
- High-Performance Back-End
- No Performance Bottlenecks
- No Migration Fees
- Support for VMware and Hyper-V
- No Dedicated Appliances Required
- Up to 1 TB Per Server Free
